The ICE train is a high-speed international train which starts from Amsterdam.

The station at Frankfurt Airport is at **TERMINAL 1**.

As you enter the station, there are stairs up to one line and down to another – you need the **up** stairs. At the top of the stairs, turn right. Ahead, you will see the ticket office – the staff speak some English.

The train at 9.54 is recommended because there is just one change, at Mannheim and there is plenty of time available for this. The second train is usually from the opposite platform.
